Hi Randy,

Per your direction, the Air District has worked with the folks at Lagan Treadwell Rollo to ensure the submitted ADMP for the Golden State Warriors Arena Project meets the requirements of the Asbestos Airborne Toxic Control Measure for Construction, Grading, Quarrying, and Surface Mining Operations, Section 93105, Title 17, California Code of Regulation (Asbestos ATCM).

The attached revised ADMP is approvable since it meets the requirements of the Asbestos ATCM.

Please let me know if you have any questions.

Thanks,

Kevin Vo
