I don't know the OCII webmasters name, but Sally Oerth (copied) is coordinating with their webmaster. The text and links that OCII is posting on their website will be the same as what we are posting on the EP webpage.

Importance: High

We are going to post the language in the attached document either later today or tomorrow for the publication of the Draft SEIR and Admin Record. However, the links to the NOA, Draft SIER, and Admin Record that will be hosted on ESA's website will be ready tomorrow after 11am. Paul Mitchell at ESA (copied on this email) will be sending the links. Since both Chris and I are out of the office tomorrow I will need your help in making sure the links are added to the text on the EP

webpage and work properly. I copied Martin in case any website technical issues occur but it should be good to go.

I can be reached via email or phone (415) 244-1189 until about 2pm tomorrow if any issues arise.

Thanks all for helping get this EIR posted.

Best,
Brett

Karen: Attached is the final introductory blurbs for the OCII website, Mission Bay webpage. Please **insert the three blurbs immediately after "What's new:"**

Brett: You had requested a copy of the blurbs for the Planning website, so I am including you as well. Actual links to be provided later.
