ANN S. POTTER, *Editorial Assistant*

*Eno Foundation was established by William Phelps Eno in 1921. Its purpose is to help to improve transportation in all its aspects through the conduct and encouragement of appropriate research and educational activities, and through the publication and distribution of information pertaining to transportation planning, design, operation, and regulation.*

One of the objectives of the Eno Foundation is to encourage the dissemination of ideas, opinions, and facts relating to the field of transportation. The facts, opinions and conclusions set forth herein are those of the author. They do not necessarily represent the views or opinions of the Eno Foundation nor can the Foundation assume any responsibility for the accuracy or validity of any of the information contained therein.

## LIST OF TABLES

Table	Page
I. Recent Activity Trends: Hospitals and Medical Centers in the United States . . . . .	6
II. Daily Population Distribution: General Hospitals and Medical Centers . . . . .	7
III. Summary of Daily Population Activity at Medical Facilities . . . . .	7
IV. Automobile Usage by Trip Purpose: Selected General Hospitals . . . . .	9
V. Percent of People Arriving at General Hospitals by Automobile . . . . .	9
VI. Typical Daily Activities: Hospitals and Medical Centers . . . . .	10
VII. Frequency Distribution of Parking Durations . . . . .	12
VIII. Hour of Peak Parking Space Demand: Hospital and Medical Center Demand Segments . . . . .	16
IX. Financial Considerations of Medical Facility Parking Systems . . . . .	21
X. University Population Trends 1960–1979 . . . . .	24
XI. Utilization of Automobile as Mode of Arrival: Selected Universities . . . . .	25
XII. Summary of Parking Space Ratios: Selected Universities . . . . .	27
XIII. Daily University Population Characteristics . . . . .	28
XIV. Summary of University Parking Space Needs . . . . .	28
XV. Financial Considerations of University Parking Systems . . . . .	32
XVI. Mode of Arrival to Various Special Events . . . . .	34
XVII. Private Vehicle Occupancy Characteristics by Type of Special Event . . . . .	35
XVIII. Comparison of Parking Spaces at Selected Stadia . . . . .	38
XIX. Financial Considerations of A Stadium Parking System. . . . .	38
XX. Preliminary Planning Considerations for Parking Facility Development . . . . .	42
XXI. Existing Off-Street Zoning Requirements for Parking at Institutional Buildings . . . . .	43
XXII. Typical Building Code Requirements: Handicapped Parking Spaces. . . . .	44
XXIII. Ranges in Parking Bay Widths for Different Stall Layouts . . . . .	46

# LIST OF FIGURES

Figure	Page
1. Activity trends of annual hospital admissions and outpatient visits . . . . .	2
2. Growth trends of college and university populations . . . . .	3
3. Hospital activity indexes . . . . .	8
4. Hourly accumulation of parkers by type . . . . .	10
5. Accumulation patterns of hospital staff . . . . .	11
6. Accumulation patterns of hospital visitors and patients . . . . .	11
7. Parking space needs of general hospitals . . . . .	14
8. Parking space needs of medical centers . . . . .	15
9. Peak-hour parking space requirements for staff at selected general hospitals and medical centers . . . . .	17
10. Peak-hour parking space requirements for visitors at selected general hospitals and medical centers . . . . .	18
11. Hospital parking space allocation for typical weekday . . . . .	19
12. Accumulation of employee parkers at general hospitals and medical centers . . . . .	20
13. Accumulation patterns of daytime student parkers . . . . .	26
14. Accumulation patterns of daytime staff parkers . . . . .	26
15. Daily accumulation of all university parkers . . . . .	26
16. Peak-hour parking space needs of universities as compared to average daily population . . . . .	30
17. Peak-hour parking space needs of universities as compared to daily auto driver population . . . . .	31
18. Typical weekday accumulation of parked vehicles Convention Center Parking Study, Buffalo, New York. . . . .	36
19. Inventory of off-street parking facilities: Convention Center Parking Study Buffalo, New York . . . . .	37
20. One method of providing a self-enforcing mix of stall sizes. . . . .	49
