Did you or anyone at OCII provide Catherine Sharpe with the MB Good Neighbor Policy as requested in the attachment? If so, please provide the email for the RTC document. If not, I can respond to her with the policy. Thanks.

Hello Catherine,
In response to your query, the [Mission Bay EIR](#) continues to be available on the Mission Bay page of the Office of

Community Investment and Infrastructure (OCII) website. Specifically, [Volume 1-C](#) of the Mission Bay EIR contains the noise analysis and may be of interest to you. The Mission Bay Good Neighbor Policy, attached, regarding construction noise is a standard policy of OCII that applies to all development within the Mission Bay Redevelopment Plan area.

If you intend to submit written comments on the GSW DEIR, just a reminder that public comments will be accepted until 5:00pm on July 20th and should be addressed to Tiffany Bohee, OCII Executive Director, c/o Brett Bollinger, San Francisco Planning Department, 1650 Mission Street, Suite 400, San Francisco, CA 94103 or by email to warriors@sfgov.org.

Regards,

Hilde Myall

Importance: High

Hilde, good morning. We are reading through the Warrior's DEIR and encountering major heartburn with the noise and vibration analysis and mitigation. First, we see continuing reference to the MB Good Neighbor Policy and the SFEIR for MB completed in 1998. None of us in the MB life science community have seen those documents much less participated in the development of same. Life science and specifically sophistication of instrumentation and evolution of preclinical work has changed dramatically since 1998.

Could you please forward a copies of at least the Good Neighbor Policy as soon as is possible.

Best regards

Catherine
