**Subject:** RE: Mission Bay CAC Agenda - July 9th Meeting  
**Importance:** High

Hilde, good morning. We are reading through the Warrior's DEIR and encountering major heartburn with the noise and vibration analysis and mitigation. First, we see continuing reference to the MB Good Neighbor Policy and the SFEIR for MB completed in 1998. None of us in the MB life science community have seen those documents much less participated in the development of same. Life science and specifically sophistication of instrumentation and evolution of preclinical work has changed dramatically since 1998.

Could you please forward a copies of at least the Good Neighbor Policy as soon as is possible.

Best regards

Catherine
