Kim:

I think when this was originally conceived the Port of SF was going to be attending. Is that still the case? If so, then I'll leave the location and construction and capital cost issues up to them. They are taking the lead in looking into engineering feasibility. I can talk generally about our service and ridership increases and be more specific as to how we would serve Mission Bay if a terminal existed. This would be fairly high level but let me think about any graphics or handouts. Will you have a projector? If not, that's OK I just need to think over how we do support materials.

Subject: Ballpark Mission Bay Transportation Coordinating Committee (BMBTCC) - October Meeting

Good morning Kevin;

Thank you so very much for agreeing to speak at Thursday, October 22, 2015 BMBTT meeting. The attendees range from residents to business owners, and of course representatives from UCSF, the Warrior's and SF Giants.

Since this group is focused on the south of Market/Mission Bay neighborhood, the attendees are especially interested in hearing about the proposed 16th Street ferry landing/pier and service/operations. Any information you could share with us on this process would be greatly appreciated. Feel free to contact me if you have any questions for me prior to the meeting.

Best regards,

Kim
